ABOUT MUSIC TO LIGHT THE WORLD

Music to Light the World is a non-profit that promotes the value of creating personal moments of God's peace and presence, to lift the spirit and soothe the soul in today's hurried, hectic world. We do this through the music of pianist Stanton Lanier, who has used Scripture to inspire the more than 100 pieces he has composed and recorded since he began this ministry more than 16 years ago. Research shows that relaxation, particularly with music, can benefit us spiritually, mentally and physically, as millions of people around the world experience each year by listening to Stanton's beautiful music. This unique ministry also donates CDs and MP3 Albums to cancer patients and others in need of hope and healing, made possible by supporting customers and generous donors. With nearly 70,000 albums given, our hope is to reach 100,000 donated albums by 2018.
